

## CHIEFS MAY NOT HAVE AUTHORITY TO CALL STRIKE BIG AMERICAN STEAMER IS SUNK BY GERMAN SUBMARINE

### STRIKE IS IMMINENT, RAILROADS REFUSE GRANT 8-HOUR DAY

Executives Will Stand Pat On Contention That  
No Concessions Due Until After Supreme  
Court Has Ruled.

### SHOW DOWN WILL COME TOMORROW

Brotherhood Chiefs Staunchly Assert Men Will  
Walk Out Saturday If Demands Not  
Complied With

(International News Service.)

Washington, March 14.—The White House was informed today through members of the railway brotherhood that no authority to call a nationwide strike is now possessed by the chiefs of their organization. These men say that the authority extended last summer has expired and that a new vote would have to be taken before the walk-out could be ordered, and that this has not yet been done despite assertions to the contrary.

Officials were unable to confirm these statements but received them with interest. Meanwhile a complete report of the situation was laid before President Wilson by Secretary of Labor Wilson. The president is still determined to do his utmost to prevent the threatened strike, but what plan of action he has is carefully concealed.

### This And Other I. N. S. Papers Keep Censorship

Secretary Daniels' request regarding the publication of ship news will be complied with to the letter by the Albany-Decatur Daily and all the International News Service newspapers.

Hereafter the Daily will print no announcement and no stories about freight or passenger ships sailing from the port of New York for the U-boat zone.

This order applies to American ships, British ships, French ships or ships of neutral powers.

No stories will be printed telling of the arming of any particular ships, such as the arming of the St. Louis, Rochambeau or any other particular ship, nor will the size of the guns used on merchant ships and the number of guns used and the number of military crews be mentioned in the Daily or other I. N. S. newspapers.

### Living Models Will Display New Fashions

Annual Show Will Begin at 7:30  
O'clock at "The Fashion."

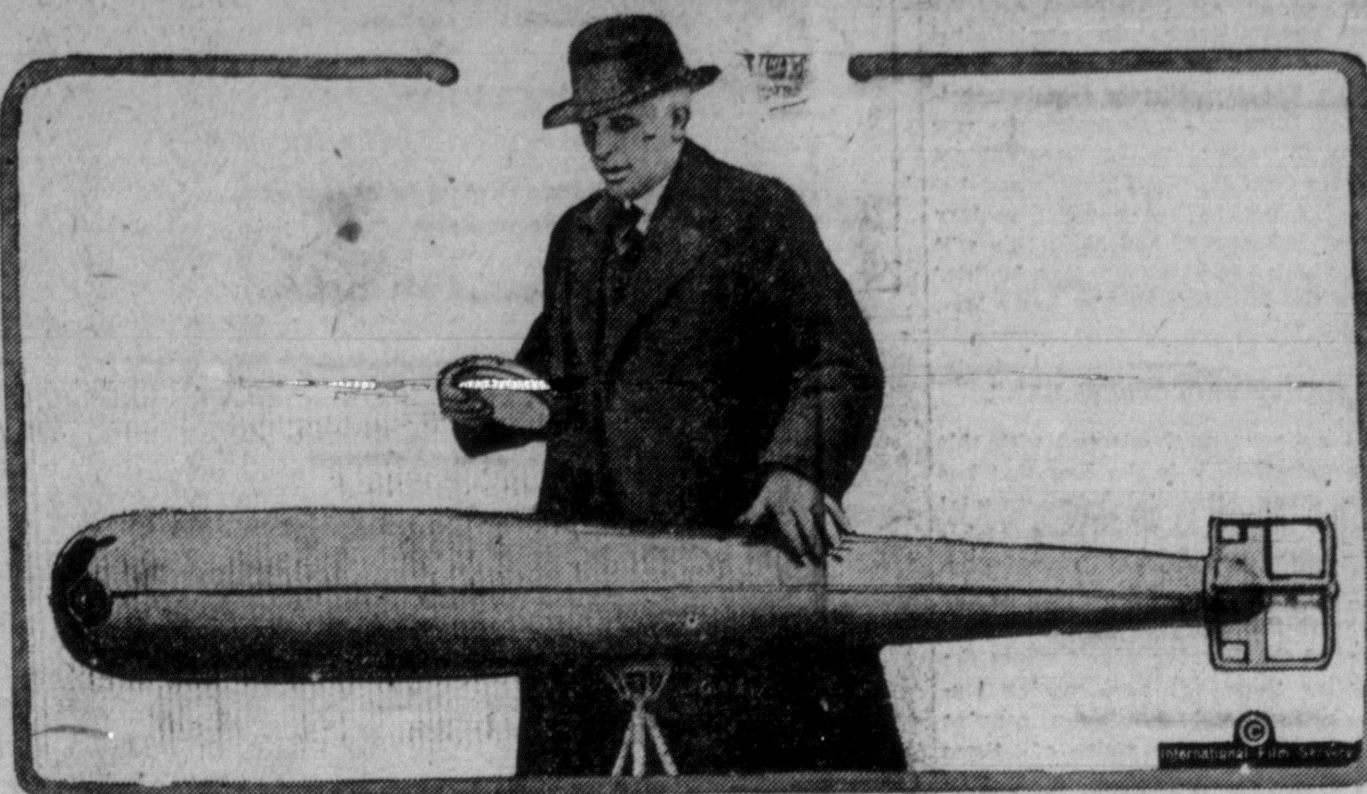

The annual showing of new spring fashions will be displayed by living models at "The Fashion" tonight. The show will begin at 7:30 o'clock, continuing until 8:30 only, in order to allow visitors to attend the other entertainments, including the auto show and the performance at the Masonic.

A dozen beautiful society girls of Albany and Decatur will act as models at the show tonight, a large stage having been erected for the display. An unique lighting effect has been arranged to harmonize with the season's new colors in dress goods. The public today was extended a cordial invitation to attend by Mr. Garnett.

### NEGRO IS FINED.

Fannie Irwin, negro, was fined \$8.60 on a charge of assault by Mayor Nelson in the Decatur police court this morning.

### TORPEDO WITH BRAINS AND ITS INVENTOR

Montraville M. Woods of Boston has invented a torpedo which he claims can distinguish friends from foes. The new engine of death shown in the picture possesses, according to its inventor, many of the faculties of the human. The whole make-up of the torpedo hinges upon the microphone or detector. This is how the inventor says the torpedo would work in the event of an attempt by any ship upon our harbor: The microphones in the torpedo are set. When the sound of the oncoming cruiser is picked up by the microphones they are telegraphed to the mechanical brain of the torpedo. The brain, upon the receipt of the message, closes a circuit which releases the anchor pin and at the same time starts the propeller working. Away speeds the torpedo at a rate of 40 miles an hour straight towards the source of the sounds to which it has been tuned.

### JACKSON IS NAMED VICE PRESIDENT OF GROUP BANKERS AT ANNUAL MEET HERE

PRESIDENT OF HARTSELLE  
BANK IS HONORED BY HIS AS-  
SOCIATES OF THE TENNESSEE  
VALLEY.

### HON. JOSEPH McCORD, SPEAKS

GOVERNOR OF FEDERAL RESERVE  
INSTITUTION OUTLINES ORGAN-  
IZATION AND WORK OF THE EN-  
TIRE SYSTEM.

A. E. Jackson, president of the First National Bank of Hartselle, last night was elected vice-president of Group 1, of the Alabama Bankers' association at the annual meeting here. Election of a presiding officer was called as the next order of business after a banquet given the visitors by the local bankers in the Masonic theatre building, the menu being served by the ladies of the Eastern Star.

The banquet was preceded by prayer, offered by Rev. Quinn, pastor of the First Baptist church of Hartselle. The business session was called to order by Thomas A. Bowles, retiring vice-president, immediately after the menu had been served.

A. E. Jackson read the report of the resolutions committee, which had been named at the afternoon session. The report recommended that the state association change the date of the group meetings from spring to September and it also endorsed the statement recently issued by the Birmingham Clearing House. Thanks were extended to the local bankers for the entertainment given them.

The report of the nominating committee, of which Clyde Hendrix was chairman, was rendered, placing in nomination for the vice presidency the name of A. E. Jackson. Nominations were then closed and he was unanimously elected.

### McCord Speaks.

Mr. Bowles then introduced to the assembly Hon. Joseph McCord, governor of the Federal Reserve Bank at Atlanta, Mr. McCord making the principal address of the meeting. He told of the need of the federal reserve act and how the new banking system is working to bolster up the credits of the nation, explaining in detail just how the reserve banks are operated. (Continued on Page Eight.)

### VAST CROWDS JAM AUTOMOBILE SHOW AT GRAND OPENING

SCHOOL CHILDREN ENJOY BIG EX-  
HIBIT THIS AFTERNOON;  
OPEN TONIGHT.

AUTO SHOW PROGRAM  
Today—Grand Opening Day.  
Thursday afternoon and night—  
Albany-Decatur Day, the Albany  
Board of Commerce attending in a  
body.

Friday afternoon and night—So-  
ciety Day, Albany-Decatur, Hunts-  
ville, Athens, Hartselle, Courtland,  
Town Creek and Trinity Day.  
Saturday afternoon and night—  
Morgan County Day.

Great throngs of people crowded the entrance to the North Alabama auto show at 306 Second avenue this afternoon at 2:30 o'clock when the doors were swung open by the Malone Coal, Grain and Motor Company, promoters of the monster motor pageant.

Prominent in the crowd from the Twin Cities and surrounding country were hundreds of school children from the grammar schools of Albany and Decatur, who were especially invited from 2:30 to 3:30 o'clock. At 3:30 o'clock the high school pupils from both institutions came, remaining until 4:30 o'clock.

Today is grand opening day. Tonight the show will be a blaze of beauty, hundreds of cars, thousands of electric lights and flowers, music and other attractions lending enchantment to the scene.

The auto show is a success in every sense of the word.

### Pope Is Preparing New Message On International Affairs

(International News Service.)  
Rome, March 14.—The belief exists in circles close to the Vatican that Pope Benedict is preparing a new and important message on international affairs. No hint as to its probable tenor can be obtained. It is believed the message will be included in the allocution which the Pope will send to the Consistory on March 22.

### BRITISH FLAG TO FLY OVER BAPAUME BEFORE NIGHTFALL; TEUTONS HIT AGAIN

ONE OF MAIN OBJECTIVES ON THE  
WESTERN FRONT FALLS AFTER  
MANY DAYS OF TERRIFIC FIGHT-  
ING

### GERMANS SLOWLY RETREATING

STILL HANG ON TO FEW POINTS  
BUT TO SOUTH HAVE FALLEN  
BEHIND BAPAUME RIDGE.

(International News Service.)

London, March 14.—Shell-wrecked Bapaume, one of the main objectives of the present British advance from the western front, probably will be in English hands by nightfall.

Dispatches from the front today told of steady British progress, while the Germans are slowly falling back covering their retreat as best they can with heavy salvos of heavy artillery fire.

Late dispatches reaching London report that the Germans are still hanging on to Bachquoy and Ach Le Petit. Further to the south, however, their retreat has carried them actually behind the Bapaume ridge.

Belief is unanimous among English officers that affairs soon will reach a crisis on the eastern front.

### BERLIN CLAIMS ATTACKS BY ENEMY REPULSED.

(International News Service.)  
Berlin, March 14.—Everywhere along the western front British and French attacks have been repulsed, the war office announced today.

General successes for German troops operating on the eastern front were reported by the war office, while the Macedonian front fighting has been renewed after a long period of inactivity.

### FRENCH WIN VICTORIES AT SEVERAL POINTS, CLAIMED

(International News Service.)  
Paris, March 14.—As the result of two violent counter attacks by the Germans at Butte De Mesnil a sweeping victory by the French forces at several points was reported in today's official statement.

### ALGONQUIN, FLYING STARS AND STRIPES, SCUTTLED BY U-BOAT

Without Warning, American Star Line Steamer  
Was Sent To Bottom By Torpedo From Sub

REPORTED THAT NO LIVES WERE LOST

"Only Brings U. S. Nearer To War," Is Wash-  
ington's Interpretation Of Ruthless  
And Unfriendly Act.

(International News Service.)

New York, March 14.—The 2,805-ton American Star line steamer Algonquin, flying the Stars and Stripes, was torpedoed and sunk by a German submarine March 12. No lives were lost.

Captain Norberg, the vessel's commander, was a naturalized American citizen. There were nine other Americans in the vessel's crew of 24.

The following cable was received here today at the offices of the American Star Line from Captain Norberg: "U-boat sank Algonquin March 12. All saved."

The cable was sent from Penzance, where the crew is supposed to have landed. Dispatches reaching New York from London say the vessel was sunk without warning.

(International News Service.)

Washington, March 14.—Sinking of the American steamer Algonquin by a German submarine simply has brought the United States "closer to actual hostilities." That is as far as officials would go today. The loss of an American Star liner has been expected.

Germany must accept responsibility for the next move of this government.

When she sinks an armed American liner, armed under international law for defense, she will commit an act of war. Officials made this very plain today. They pointed out that up to the present the attitude of the United States was one of tolerance. That tolerance will end when American vessels protected by American sailors are attacked.

Secretary Lansing, when asked today whether the sinking of the Algonquin meant any sudden action by the United States, characterized it "as an additional straw to the camel's back."

The Algonquin was not armed, according to officials here.

### U. S. NOT PARTY TO ANY U-BOAT NEGOTIATIONS

(International News Service.)  
Washington, March 14.—The United States is not a party to any negotiations with Germany to change her U-boat methods.

This was emphasized again and again today in official quarters, following reports from Scandinavian points that Germany has considered modification of her blockade program to mollify this government.

The last word so far as the United States is concerned was uttered when Count Von Bernstorff was dismissed.

Unless Germany of her own volition restores her methods of warfare to limits permitted by international law there will be no change whatever in the "armed neutrality" policy ordered into effect by President Wilson. Sinking of the Belgian relief vessels Storstad and Lars Fastenaves in a most wanton manner while their relief flags were flying, is accepted here by officials as indicating what the fate of American liners will be if they (Continued on page two.)

### CHAS. VEST GIVES UP TO OFFICIALS

MAN CHARGED WITH SLAYING  
GRADY LOWREY SURRENDERS  
TO SHERIFF FORMAN.

Charles Vest, charged with slaying Grady Lowrey near Danville several weeks ago, surrendered to Sheriff Forman last night. Vest walked to the jail about 8 o'clock, knocked on the door, and told the official he was ready to be placed in jail.

Sheriff Forman and several deputies were sitting in the front room of the jail, when Vest knocked.

"Come in," said Deputy Beasley. Sheriff Forman, being the nearest to the door, arose and opened it. A stranger stood in the semi-darkness a moment before speaking.

"This is Charlie Vest. I believe you are looking for me," the stranger said to the startled official.

Vest was placed in a cell later. It is said he has discussed his case with attorneys, but no announcement of retention of lawyers has been made by him.

### Auto Show Visitors Invited To Inspect The Daily's Home

A cordial invitation to all visitors to the North Alabama Automobile Show is extended to call and inspect the plant of the Albany-Decatur Daily. Visitors will find a welcome here. The Daily's home is on Second avenue, just north of Moulton street.

### CHINA BREAKS WITH GERMANY; SIXTY VESSELS ARE SEIZED

(International News Service.)

Washington, March 14.—China today severed diplomatic relations with Germany, the navy department was today advised by the United States senior naval commander.

The dispatch, dated today, follows: "China severed diplomatic relations with Germany today. Seized all German merchant vessels lying in the port of Shanghai, about 60 in number, and sent all their crews on shore and placed armed guards on board all vessels."

## WELCOME!

In the name of the citizenship of Albany and Decatur, the Daily welcomes visitors to the North Alabama Automobile Show.

The keys to the cities are in your possession and we bid you thrice welcome to the queen cities of North Alabama.

## ALABAMA'S OPPORTUNITIES.

Frank P. Glass, editor of the Birmingham News, who accompanied the inter-departmental commission named by President Wilson to locate the \$20,000,000 nitrate plant, to Tuscaloosa last Sunday where the Warrior river's claims were presented, wrote an editorial on his return to the Magic City in which he recorded the impression that the visitors had obtained of Alabama.

In this editorial, Mr. Glass made the following statement:

One of the secretaries, a man of unusually wide knowledge of the United States, one who has spent much of his life in what perhaps is the most progressive section of the country, a man of imagination, of vision, of ideals—summed up his views in this short, practical sentence:

"If I were twenty-one years old I would come to Alabama to spend the rest of my life."

Nothing more vigorous or emphatic could have been said, for when a man chooses his place of residence, he has paid the highest tribute to that place, to its people, to its opportunities, to its capacity to develop him most effectively in all relations of life.

That sentence is a valuable declaration, for it changes Mr. Greeley's old slogan, "Young man, go West," and brings it up to date—"Young man, go South," and it comes from one who is today better equipped to speak than was Mr. Greeley nearly fifty years ago.

Another of the secretaries, who has known the South intimately during the larger part of his life, who has an intensely practical mind and the genius of common sense, made this instructive statement:

"All that I have seen in the last few days has brought constantly into my mind the thought that here in Alabama you are really in the pioneering period."

Mr. Glass has expressed the big idea—that whether the nitrate plant is located at Muscle Shoals or not, Alabama has a great future ahead when the matchless resources of the state are more fully developed. The harnessing of the Tennessee and the removal of the great natural barrier to navigation would be an advance move that would put the commonwealth many years forward. At the same time, if the plant goes elsewhere it is only a matter of time until the state's genuine claims to greatness are recognized. One of the engineers who has worked for the Muscle Shoals site indefatigably, expressed a similar idea Monday while en route to the Tri-Cities.

He said:

Suppose we don't get the nitrate plant. Even the people here in Florence and Sheffield and Tusculum who are most vitally interested, have gained much by the fight they have made. They have learned to co-operate, to pull together for a common cause—something they never knew before. The Tennessee river is going to be developed sooner or later, regardless of who does it, and the natural resources of this section are going to be developed, regardless of how or when. The only thing that really concerns the people of Alabama is whether

they have the initiative and the energy to get the most out of the great natural resources that are at their doors.

And this is the situation in a nutshell. It is simply a question of going out after things. Admittedly, there is no state in the union that has more to boast of. To the south is the Gulf with its great ports; to the north the sixth mightiest river in the United States. Alabama soil will produce anything from cotton to oranges. Alabama mines contain every mineral almost that is known to the metallurgist. The climate is diversified and ideal. Nothing is lacking but the capital and the brains needed to make the most out of what nature has given us. Let us look forward!

## THE BELLIGERENT PACIFISTS

It is interesting, if not a paradox, that some of the most extreme pacifists in the present national crisis are very belligerent gentlemen personally. There is the case of Senator Kirby of Arkansas who was sent thirty pieces of silver for his betrayal of the armed neutrality bill by 286 prominent citizens of Jonesboro, Ark., the thirty dimes being reminiscent of the price paid for Judas.

Senator Kirby answered in the following telegram to a Little Rock paper which shows he is not all pacifist after all.

Your readers may be curious to know what was done with the money that the thirty 10-cent patriots from Jonesboro sent me in derision of my position in the senate. I am using the money sent in derision of my standing by our country to inform you by wire that about 30,000 enlisted men are now needed in the army and navy, and something like 4,000 officers and probably an additional million will be required in the next 90 days. The list of your names is kept so that they may be checked if any of you enlist, but I expect my young son will be gray with age before two per cent of you will go to the front unless conscripted.

W. F. KIRBY.

## ETOWAH'S BACKWARD STEP.

The voters of Etowah county yesterday voted against the tick eradication campaign. In less than a year from now the same voters will begin to regret their rashness just as Lawrence county has already done.

The eradication of the cattle tick ought to be a matter on which there is little debate in Alabama. The progressive counties of the state are fast barring the tick, just as the saloon and other nuisances have been exiled.

When Morgan county had up the question of tick eradication last year it took a hard fight by Albany and Decatur to win over the tick advocates from several of the rural precincts. The measure came down to the cities from the county with a big tick majority, but this was wiped out and eradication carried by less than 100 votes. Gadsden should have turned out en masse to vote for tick eradication. The Gadsden business men and the county generally will regret the failure of eradication before another year comes.

## ALGONQUIN, FLYING STARS AND STRIPES

Continued from Page One.)

encounter submarines and are unable to use their guns in their own defense.

Word that an armed American liner has cleared for Liverpool probably will not be made public until that vessel is either through the danger zone or has been attacked.

Ambassador Gerard was expected to reach here this afternoon. It was stated that arrangements will be made at once for the ambassador to report to the president, possibly tomorrow, and then to make another report to Secretary Lansing.

(International News Service.)

London, March 14.—The American Star Line steamer Algonquin, laden with foodstuffs from New York, was torpedoed and sunk by a German submarine without warning on Monday. All on board were saved, according to dispatches reaching London today. The survivors were picked up in open boats by a British patrol boat after assistance to the crew of the sinking vessel had been refused by the U-boat commander.

## Seek Oil in Siberia.

The Standard Oil company will explore for oil in Siberia, where there are indications of its presence. Reports to Uncle Sam say that the Russian minister of trade and commerce has given the company the right to prospect.

## Just In Passing

WITH PERSHING IN MEXICO.

"I have just gotten back from Mexico where I was detailed for duty for months with the expeditionary forces under General Pershing," said Major Lytle Brown, of Nashville, U. S. engineer in charge of the government's work on the Tennessee and Cumberland rivers. "The climate in Mexico is simply unspeakable and I was very glad to get out of the country, although I hated to leave the men in Mexico." Major Brown was with Secretary of War Baker's party on the trip to Muscle Shoals.

## BAKER KNEW MRS. MATHIS.

"Mrs. Mathis who addressed the bankers' meeting in your city Tuesday afternoon is certainly one of the best known women in the United States," said Congressman Ed B. Almon. "At the Muscle Shoals meeting in Birmingham Saturday she was being introduced to the three cabinet officers by Col. Worthington, and before he got to her name Secretary Baker interrupted and said: 'We will be delighted to hear from Mrs. Mathis.' Even the secretary of war knew Mrs. Mathis."

## GREAT RECEPTIONS HERE.

"I am very much pleased with this demonstration, it is the best that has been given the inter-departmental commission since it reached Alabama," said Col. J. W. Worthington Monday morning as he stood on the deck of the steamer Lookout and scanned the Decatur wharf where the cheering thousands were waving American flags and showing a genuine appreciation of the visit of three members of President Wilson's cabinet.

"I feel sure that Secretaries Baker, Lane and Houston appreciate this reception," continued Col. Worthington, "and I am sure that I am delighted at the interest shown by the people of Albany and Decatur. It is most gratifying."

## TRIED THE NEWSPAPER GAME.

"I like the newspaper game, in fact I served an apprenticeship of one year myself," said Maj. W. S. Winn, assistant U. S. engineer in charge of Tennessee river work. "When I was starting out in life I drifted over to St. Louis and landed a job as reporter. I liked the work better than anything I ever did, but I couldn't stand the pace and my health broke down. That's why I am an engineer now, perhaps."

## TRI-CITIES ARE HOSPITABLE.

"The people of the Tri-Cities are unusually hospitable, and on the two occasions that I have been there in connection with Muscle Shoals activities I have been delightfully entertained," said H. D. Harkreader. "Among the 'bunch' that joined in making things pleasant for the newspaper men last Monday were W. B. Mitchell, Henry T. Bradshaw, Dr. H. J. Willingham, Judge Pride Tompkins, Mr. Funke, Claude Willford and Judge E. B. Almon. Of course the newspaper clan there had out the glad hand. Where would you find finer newspaper men than at Florence, Tusculum and Sheffield. Walter Miller, Frank Julian, Fontaine Little, Hansborough, Davis, Smith and Camper are always on the job looking out for the pleasure of members of the profession when they drift over that way."

## TRUTHFUL ADVERTISING.

"I was much impressed with the statement of Andrew E. Coburn, advertising manager of the Maxwell Motor Company, regarding advertising," said R. C. Ross, of the Ross Auto Co. "Mr. Coburn said: 'Exaggeration and the use of superlatives in the printed as in the spoken word, inevitably react to the discredit of the one employing them. Yet some advertisers plunge on blindly, over-stating the merits of their product, blatantly claiming all the super-excellences for their wares and then wonder that their more conservative competitor outsells them. Modesty and a firm respect for the facts are qualities that are certain to command respect—partly through their inherent charm and partly through the infrequency of their use.'"

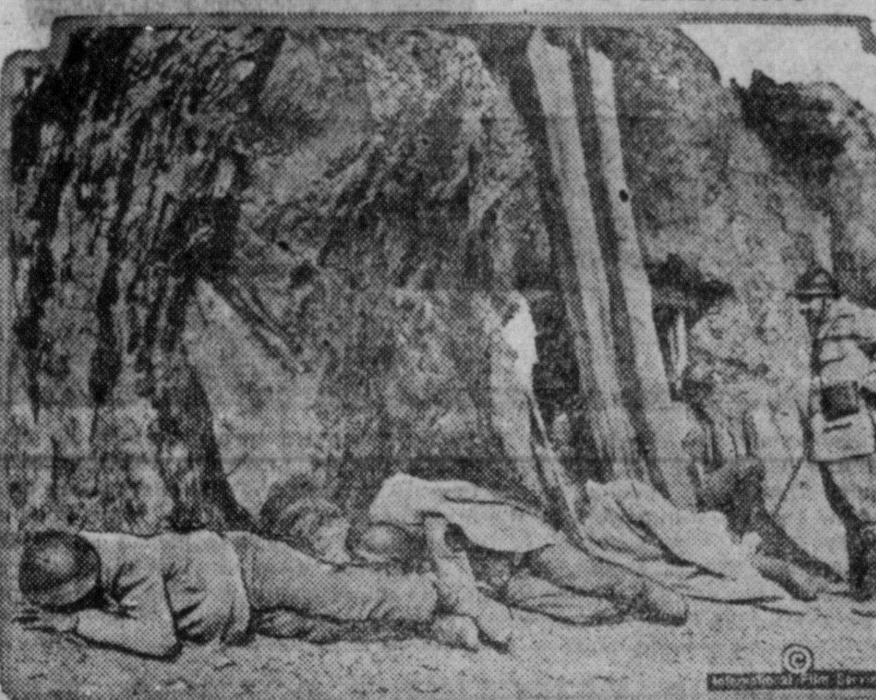

## Much Fresh Air Is Needed.

Trouble brings on heart conditions and lung difficulties, it is said, because there is then a lack of fresh air taken into the lungs and the breathing is never deep enough. Therefore, to make it a habit to breathe deeply, whether one feels like it or not, is one of the best remedies for the difficulty in hand, whatever it may be. Again, not only must past blessings be inventoried, but a hope must be held out, which will give one a goal to work for. No one man or woman can live without this aim in life. The joys or favors in hand must be remembered, to be sure, but there must also be something ahead in view or there is a resigned state of mind which is unhealthy.

## THOSE THAT HAVE-GET BY A-T. WESTON

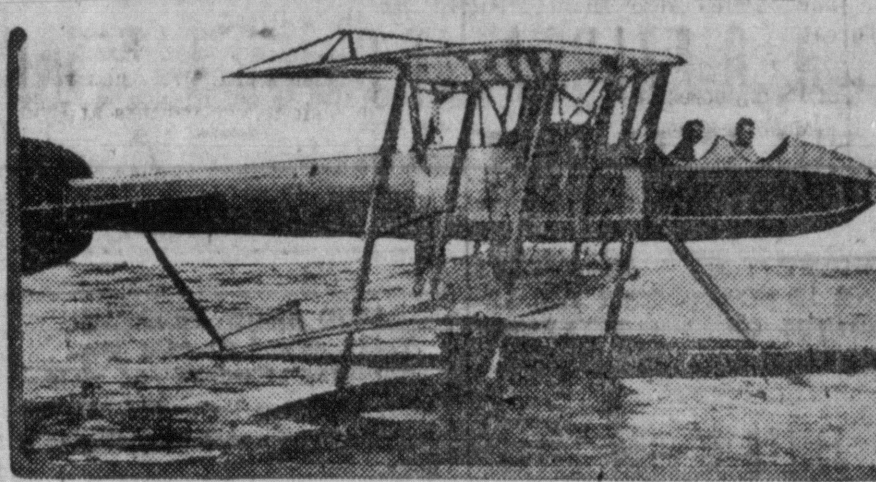

## FRENCH HOSPITAL IN THE BALKANS

A French hospital in the side of a hill under shell fire in the Balkans. The large piece of timber over the entrance gives a certain amount of security. Owing to the limited room inside some of the patients have to wait outside.

## GIANT UNITED STATES SEAPLANE

This 300 twin-motored Gallaudet seaplane, known as D-1, is one of the latest additions to Uncle Sam's fleet of aircraft. It is capable of carrying several passengers.

### Meats Begin To Advance In Price

Bacon, Ham and Beef on Up Grade,  
Say Local Butchers.

The price of beef and other meats has joined the army of the High Cost of Living and has begun to advance on the common enemy—the consumer.

This was revealed today by meat market men of Albany and Decatur who declared that the price of meats had not advanced at all up to several days ago, but they are going up now.

High grade bacon has gone from 35 to 40 cents per pound on the local market. Ham has also gone from 35 to 40 cents per pound. Kansas City beef is selling for 25 cents per pound, while domestic beef is 20 cents. Sausage is 25 cents, having advanced from 20 cents and lower. Almost all other meats have hit the upward grade.

If you need a clerk, salesman, stenographer or any kind of help, the quickest way is a Daily want ad.

### BUSINESS BRIEFS

North Alabama automobile show opened today.

Speake & Moebees advertise children's wash dresses at from 59 cents to \$5.00.

Burk Auto Company features Ford cars.

The Fashion announces its fashion show tonight with living models.

Buttrey announces demonstrations by an expert corsetiere.

Central National Bank has an unique ad entitled "The Margin of Safety."

Jno. D. Wyker & Son advertise poultry fence.

T. C. Coffee Company invites auto show visitors to call.

R. B. Graves invites auto visitors to inspect his news stand.

Williamson advertises spring goods and invites auto show visitors to call.

E. C. Payne Lumber Company tells of Payne screens.

Masonic theatre announces "Hans und Fritz" tonight.

Morgan Furniture Company opens rest room for auto show visitors.

# SOCIETY

Margaret Clinton Shelton, Phone 682, Albany

### PROGRESSIVE CULTURE CLUB.

Mrs. L. A. Neill, president.

Mrs. C. E. Malone, secretary.

Mrs. Baxter Crawford, hostess, Tuesday, March 13.

The meeting of the Progressive Culture club of Tuesday was of unusual interest. The subject for study was quite broad, and each assigned subject was gone into thoroughly and with marked enthusiasm.

"Citizenship and Moral Training in the Public School," a paper prepared by Mrs. J. D. Wyker, and read by Mrs. R. L. Maury.

"Educating the Immigrant for Citizenship," a paper prepared and read by Mrs. E. H. Allison.

Papers and magazines are teeming with articles on these subjects. These papers were intelligent and comprehensive.

### WOMAN'S LITERARY CLUB.

On Tuesday the Woman's Literary club adjourned to attend the address delivered by Mrs. Mathis at the Board of Commerce club room.

### SATURDAY CLUB.

Mrs. W. C. Bailey, president.

Mrs. W. E. Steed, secretary.

Mrs. L. J. Ramage, hostess, Saturday, March 17.

### FERRY STREET BOOK CLUB.

Mrs. Pruitt Cartwright will be hostess to the Ferry Street Book club Friday.

### MUSIC STUDY CHORUS.

The Music Study Chorus will meet Thursday afternoon at 2 o'clock with Mrs. W. R. Shelton.

Mrs. Leo Oberdorf (nee Miss Stella Falk) is quite ill at her home in Birmingham.

Mrs. Lewis Lesser is at the Benevolent hospital.

Mrs. Josephine Sheets arrived on Tuesday to visit her sisters, Mrs. J. I. Chrisinger and Mrs. E. H. Allison.

Mr. and Mrs. L. T. Pride, of Pride, Ala., are the guests of Dr. and Mrs. Hugh Greer.

Miss Mabel Pride has returned from a visit to her parents at Pride, Ala.

Mrs. Rinda Crocker left this afternoon for Lynnvilla, called there by the illness of her father, J. H. Goforth.

Mrs. Emma Spierman will leave Saturday for Birmingham to undergo an operation for appendicitis.

### PERSONALS

R. V. Zartnar, of Columbus, O., was here on business today.

W. R. Simpson will leave tonight for Montgomery to attend a life insurance convention.

Sid Kimbrough, who makes his home in the west, is visiting his brother, P. G. Kimbrough.

W. A. Britain has recovered from a recent accident and is able to be on the streets.

### Curing Leprosy.

Some weeks ago the Courant mentioned that a Cuban had asserted that he had discovered a cure for leprosy and had so far impressed the Havana authorities that a commission of physicians had been appointed to investigate the matter. It now appears a leper, no further away than Pennsylvania is so much improved in health that he has been released from quarantine. It is asserted that while bacilli are found in nodules on his face, his blood shows no trace of them or of the disease, and the authorities of Wilkesbarre, which have been keeping him and his family in quarantine at an expense of \$8,000 a year, have put an end to the outlay by removing the quarantine. It may be supposed that the man, Joseph Norman, will not be altogether popular at social gatherings for some time to come, but it is significant that his condition has so far improved that he is permitted to be at large.—Hartford Courant.

### River Stands At 22 And is Falling Fast

Big Rise Above Chattanooga Is Due Soon, However.

Whether or not a big rise in the Tennessee river above Chattanooga will strike this section of the river before the present high waters recede, is a mooted question among river men today. If the river falls several feet more before the new rise strikes it, all will be well. Otherwise a flood of unprecedented dimensions is scheduled.

The river this morning stood at 22.2 feet and was falling fast, the decline since yesterday morning being 1.2 feet. At Chattanooga today the river stood at 19.9 feet. At Bridgeport the gauge was 21 feet and at Guntersville it was 29 feet. Cloudy weather was reported from all three places.

Whether the heavy rains of last night will affect the river remains to be seen.

25 days 'til Easter. Get measured now. Speake & Moebees. "International."

Business or professional cards, printed or engraved. The Daily.

## UNION LOCK POULTRY FENCE

The Union Lock really locks! The pickets pass between the cable wires and are fastened securely in a manner employed only in the manufacture of this fence.

Horizontal lines are composed of two No. 20 galvanized steel wires coiled together, with pickets of No. 10 wire.

No rail is needed at top or bottom of Union Lock, and no more posts than are required for ordinary stock fence are necessary in its erection.

We carry an ample stock of this fence, and we can save money for the buyer.

### CAUGHT OSPREY IN FISHLINE

Remarkable Feat That Is Credited to a Member of the New York Fire Department.

How a fisherman lassoed and captured an osprey, or fishhawk, with a hand fishline, is told by a correspondent of the New York Sun. A number of fishermen were on board, he says, and we were anchored with lines out in every direction. I was fishing from the starboard side of the top deck, near the stern, when suddenly it made a dive for a bergie that was floating on the water a short distance from the boat, between two lines, but nearer the line of Mr. John Woods of the New York fire department.

Mr. Woods tried playfully to throw his line over the bird, and somehow he actually succeeded in looping the line round its left wing in such a manner that it could not escape.

The hooks did not catch at all, for they were far beyond, but the osprey was securely lassoed. It was at once an exciting and a ludicrous task to reel in the big bird. It struggled desperately, and had it not been for the length of line beyond it, with a tenounce sinker at the end, it might have been necessary to reel it down from the sky instead of up from the sea. When it was brought to the deck and found itself in the strong but not unkind hands of a group of fishermen, it seemed frightened, angry and disgusted; but, strange to say, it did not fight its captors.

Someone suggested killing it, and one man urged sending it to an aviary; but above all the other voices I heard a self-appointed counsel for the prisoner, pleading for its liberty with an oratory effective if not classical: "Aw, let the poor fellow go!" And so, on reflection, said the jury.

When the bird was set at liberty, none the worse for its strange adventure, it shot straight down among the lines again, got the bergie it started out to get, and then leisurely flew away.

### TIME FOR BOSS TO GET BUSY

Paddy's Earnest Warning Seems to Have Been Justified by the Facts of the Case.

Paddy was out of work, and passing a works he saw a notice which said a stoker was wanted.

Of course, he could use a spade, so he applied and got the job. It seems the man who held the job before was sacked because he lost time, and naturally his mates wouldn't tell Paddy how to go about his fresh job.

The boss told him to watch the pressure gauge, and if he wanted to know anything he was to go and ask the boss.

For a while all went well. Paddy shoveled the coal on, and the gauge registered full pressure; and he worked away until the safety valve started blowing off. Still he worked away, and the steam still escaped through the safety valve.

Paddy, not knowing what was the matter, ran to the boss, and said:

"Boss, if you don't be coming to this boiler, the boiler will be coming to you!"

### Mike's Foolish Question.

The talk topic at a recent social session turned to the propensity that some people have for asking foolish questions when this happy little incident was recalled by Harry Fox, the well-known actor.

One Sunday morning last summer the weather was so exceedingly hot in Pat's happy home that he took himself out to the back porch for his Sabbath shave.

While Pat was performing the operation of amputating his bristles his next door neighbor Mike sauntered out on the back porch adjoining.

"Shure, Pat," pleasantly remarked Mike, leaning on the partition railing, "how comes it that yez air shavin' on the outside this mornin'?"

"Begorra, Moike, an' how can Ol help it?" responded Pat, his eyes merrily twinkling through a mass of lather. "Do yez think for minnute that Ol'm furlined?"—Philadelphia Evening Telegraph.

### Lucky for Him.

A well-known athlete says that on entering a Turkish bath one night he found a stranger struggling in the swimming pool. There was nobody near, and the man was evidently unable to swim, having jumped in probably without ascertaining whether the water would be above his head.

The athlete swam to the assistance of the struggling man. Grasping him by the hair, he towed him to the side of the tank and assisted him to hang on until he recovered his breath.

What were the first words uttered by the rescued one? Did he stammer out thanks to his human preserver? No. The human mind is a curious affair. As the half-drowned man struggled back to consciousness, memories of an old jest seemed to flit through his brain, for he said:

"Lucky for me I wasn't bald-headed!"

### His Choice.

Uncle Hiram from Podunk, was taken by his nephew into a downtown hashery for lunch.

"I guess I'll have some coffee and sinkers," said the nephew.

"Did you say sinkers?" asked the old man.

"I sure did, uncle."

"Well," said Uncle Hiram, as his eye fell on a spaghetti eater, "I reckon I'll have a mess of fishin' lines like that there feller is eatin' out of a bowl."

### DOYLE'S IGNORANCE

Doyle—Why do them false eyes be made of glass now?

Boyle—Sure, and how else could they say throu' 'em, ye thickhead!

### AT LAST

Mr. Newlywed (as they were starting on their wedding journey)—My own, are you glad you are mine—mine forever?

Mrs. Newlywed—Yes, dear. Now I can eat green onions whenever I please.

### PROOF

"You think Count Goldseeker is honest in his desire to pay his debts?" "Certainly! His wish to marry an American heiress proves it."

### THE VERY REASON

"So she's going to marry that old millionaire. Why he has one foot in the grave. What is her reason?" "That foot."

### FIRST YEAR

"Remember, my boy, that the first year of married life is always the hardest."

"That so?"

"Yes. It will take you all that time to give dinner parties to the relatives and friends who believe they ought to be invited to test your wife's cooking."

### Flood Conditions Are Predicted For Ohio

(International News Service.) Washington, March 14.—Flood conditions in the Ohio valley are predicted by the U. S. weather bureau today. The Ohio will continue to rise from Pittsburgh to Cincinnati during the next few days.

The Tennessee river is now in moderate flood, according to the report, and the crest will probably reach the Ohio tomorrow or Friday.

### Daniels Asks Bids Seven Fast Cruisers

(International News Service.)

Washington, March 14.—Another step toward making the United States navy the equal of any in the world was taken today when Secretary Daniels opened bids for six new scout cruisers, to be the largest and fastest vessels of this class ever laid down by any navy. They will be 550 feet long and 4 inches in breadth. Their displacement will be 7,100 tons and their speed will be 35 knots an hour.

### Origin of the Curfew.

A note by Ruskin Butterfield reminds us that, although Shakespeare speaks of "the curfew bell" and Milton of "the far-off curfew sound," Chaucer more correctly refers to "corfew tyme," as curfew was originally an appliance for covering the fire. There are examples still in existence, for instance, in the Hastings (Eng.) museum; they look like large tea caddies in metal. They served, as moderns use fireguards, to prevent sparks setting the house on fire, and the housewife heaped the embers together at night and placed the curfew over them to lessen the combustion, and in the morning save the trouble of lighting the fire again.

### ALABAMA POWER COMPANY

VS.

G. A. NELSON, ET AL.

In the Court of Probate of Morgan County, Alabama.

To G. H. Sneed, Pulaski, Giles County Tennessee:

You are hereby notified that Alabama Power Company, a corporation has filed its written application in this Court, seeking to condemn and to acquire the lands, rights and interests therein described for ways and rights of way upon which to erect tower poles and wire lines and other appliances necessary or convenient in connection therewith, for the manufacture, supply and sale to the public of electric power, on, across and over a strip of land one hundred feet in width, according to the final location survey of the said ways and rights of way heretofore made by the applicant, the said strip of land and the lands of which the same is a part being situated in Morgan County, Alabama, and described as follows:

Said strip is a part of the southwest quarter of the southeast quarter of section thirty-two and of a tract of land described as follows: Ten acres off the west side of the southeast quarter of section thirty-two, all in township five south, range four west. Said is more particularly described as follows: Beginning at each side of a line, and the continuations thereof, beginning at a point on the west boundary of the south-east quarter of said section thirty-two, said point being north 477 feet from the southwest corner of the southeast quarter of said section thirty-two, running thence north 67 degrees and 48 minutes east for a distance of 1768 feet, more or less, to a point on the east boundary of the above described ten acre tract of land.

And you are further notified that the hearing of said application has been set by the Court for the 31st day of March, 1917, at 10 o'clock a. m., and notice of said application and of the day so appointed for the hearing thereof is hereby given to you.

Witness my hand this 9th day of March, 1917.

L. P. TROUP.

Judge of the Court of Probate M-9-16-23. of Morgan County, Ala.

## Vault Is Being Built By County

OFFICE OF CIRCUIT COURT CLERK  
WILL BE MOVED TO SECOND  
FLOOR.

Construction of a new vault was begun by the county at the court house today, for the use of Circuit Court Clerk Draper, whose office will be moved from the first floor to the sec-

ond. It is expected the change will be made within the next three weeks.

The office of Tax Assessor Troup and Tax Collector Robertson will be moved from the second floor to the office vacated by Mr. Draper, and they will use the latter's vault. The change was suggested to the commissioners' court several weeks ago as being more convenient for the citizens who go to the court house each year to look after their taxes.

Mr. Draper will use the room formerly given over for the juries, which now probably will deliberate in the office vacated by Messrs. Troup and Robertson.

### Ancient "Blue Laws"

The term "Connecticut Blue Laws" has generally been applied to a set of laws passed by the general court of New Haven in 1644, 24 years after the landing of the Pilgrims. The members of the New Haven court were Puritans. That was a period of severe penalties, and even Virginia had a law, passed in 1610, providing that "what man or woman soever shall rob any garden, public or private, being set to weed the same, or wilfully pluck up therein any root, herb or flower, to spoil and waste or steal the same, or rob any vineyard or gather up the grapes or steal any ears of corn growing, shall be punished with death."

### "Boomfit" Means Fifteen.

A strange set of numerals was used by the elder generation of farmers in one of our northern dials, especially for counting sheep, and the procedure was as follows: A gap was made in the wall just wide enough to admit one sheep at a time, and as the sheep were driven through the farmer would count them, making a notch in his stick at every fifteen. Phonetically the numerals sound like "yann, iane, tether, mether, pip, sax, sane, cateter, wheeler, dick, yann-er-dick, tane-er-dick, teth-er-dick, mether-er-dick, boomfit." "Boomfit" was fifteen, and so a notch was made in the stick, and the strange chant began all over again.—London Chronicle.

## STATE MEETING OF Y. M. C. A. HERE IN APRIL; 75 DELEGATES EXPECTED ATTEND

SECRETARY RANDLE OF LOCAL  
ASSOCIATION LANDS BIG GATH-  
ERING WHILE IN BIRMINGHAM  
MONDAY.

### SEVERAL SPEAKERS OF NOTE

INDEPENDENT WORK IN ALABA-  
MA ONLY ORGANIZED ONE YEAR  
AGO, AND THIS IS FIRST STATE  
GATHERING.

In response to the invitation of the officers of the local Y. M. C. A., the annual meeting of the State Young Men's Christian association will be held in Albany April 6 and 7. This will be the first annual meeting of the state association, as the independent work in Alabama was only organized one year ago when a convention was called to meet in Selma for that purpose, the work having been carried on several years previous to that time by a Tri-State organization in conjunction with Mississippi and Louisiana.

Three or four speakers of note will be present from New York, Mississippi and Alabama. Delegates will be in attendance from Birmingham, Huntsville, Montgomery, Selma, Tuscaloosa, Gadsden and other points in the state. Pensacola is affiliated with the Alabama work and will also send delegates.

Secretary Randle was in Birmingham Monday in conference with State Secretary Richardson regarding the meeting, and the later stated matters were shaping up nicely, and that a good attendance was expected. Each association is entitled to a certain number of delegates, which for the whole state, will total about seventy-five representatives.

The state committee is composed of such men as J. B. Wadsworth, of Gadsden; J. T. Horne, of Tuscaloosa; J. C. Goodrich, of Huntsville; S. F. Hobbs, of Selma; C. J. Beane, of Montgomery; W. M. Cosgy, J. T. Hury, of Birmingham, and other well-known men of the state. A. H. Hoff is the local member of the committee. These men are bankers, merchants, manufacturers, lawyers, school men and from other lines of business and professions. Further particulars and the program will be announced later.

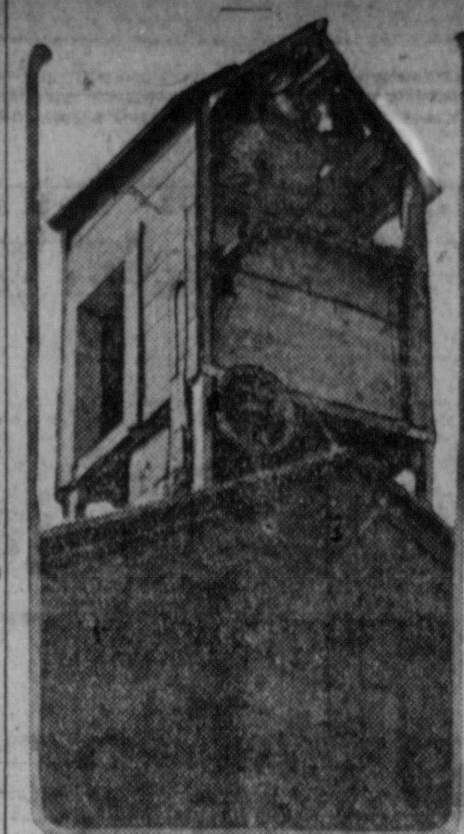

### Jeems Henry Was Conjured!

"Mars John," excitedly exclaimed, "unt Tildy, as she pantingly rushed into a fire-engine house, 'please, sub, phonograph to de car cleaners' semporium and notify Dan'l to emigrate home dirgently, kaze Jeems Henry sho' done bin conjured! Doctor Cnter done already distracted two blood vultures from his 'pendercitis, an' I lef' him now prezaminatin' de chile's antebelum fur de germans ob de nen-roplumonia, which ef he's disinfected wid, dey gotter' quarantines—but I ice-coldated quarantines—but I b'lieve, it's conjuration!"—Richmond Times-Dispatch.

### Had Worked Hard.

Elizabeth, aged four, is very fond of a young woman who lives across the street from her grandmother. One Saturday she had coaxed all day to be allowed to go over, but her grandmother said, "No, they are busy over there, and don't want you." Finally, late in the afternoon, a member of the family across the street called her to come over and get a toy belonging to her. When she was safely in the house she drew a long breath and exclaimed, "Gracious, I've worked hard all day!"—Richmond Times-Dispatch.

### KEEPING TAB ON THE FLYERS

This man is stationed in an observation tower at Mincola, Long Island, to watch the flights of army aviators, who have continued their training there despite the cold weather.

### Missed a Sale.

"It seems to me," said a Main street stationer, "that everybody's writing or dictating letters these days. Nine customers out of ten who come in here ask for postage stamps. This morning a woman was here browsing around. She looked over the entire stock. I thought I had a customer. After she finished her rounds she remarked: 'Oh, I nearly forgot. Have you any postage stamps?' I said yes and asked her how many she wanted. She handed me a wrapped newspaper and asked how much I thought it ought to have to carry it to its destination. I weighed the darned thing and told her a cent would be sufficient. 'Is that all?' she said. 'Well, I have a one cent stamp in my pocketbook. I thought it would come to more. Thank you very much.'"—Richmond Times-Dispatch.

## New York Police Guard Ft. Hamilton When Plot Rumored

(International News Service.)  
New York, March 14.—Picket lines of 300 police hastily thrown about Fort Hamilton in the early hours of the morning on reports that German reservists were about to blow up the fortification, were withdrawn shortly after 8 o'clock today.

Police boats, however, were kept patrolling the narrows against the possibility of attack. The reports came from apparently nowhere. It was reported today that a German plot had actually been discovered and frustrated. Army officers stationed there, however, refused to confirm this.

## Russ Food Riots Promptly Suppressed

(International News Service.)  
London, March 14.—Food rioting in Russian cities, notably Petrograd and Moscow, has been suppressed by the military authorities, according to dispatches filtering through from Petrograd today.

Armed troops are patrolling the streets prepared to promptly suppress any uprising.

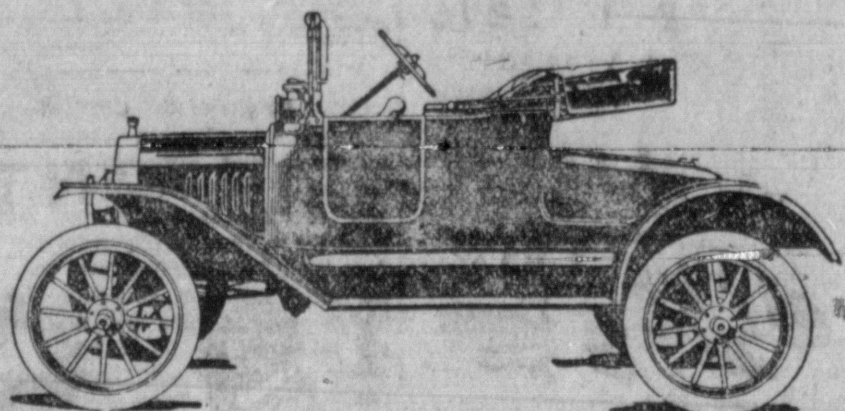

## Almost Inch Rain Fell During Night

A rain storm of unusual violence visited the Twin Cities at 10 o'clock last night. The government weather bureau at Decatur reported a fall of .87, or almost one inch.

The rain was accompanied by a violent electrical display.

## BATTLE ROYAL FOR CONTROL OF NEXT HOUSE IS STAGED

(International News Service.)

Washington, March 14.—Republicans and democrats have laid their plans for the big drive April 16 for the control of the next house of representatives.

The democrats will caucus April 12 and on April 14 the republicans will assemble in a final effort to smooth out their differences so that a solid vote may be cast for the speakership.

At about the same time the five independents also will meet.

## President Wilson Is Confined To Bed

(International News Service.)

Washington, March 14.—The condition of President Wilson was reported satisfactory today. The executive remained in bed, however, and it was announced that he would not see Ambassador Gerard until tomorrow or the following day.

## ALL WORN OUT

Does morning find you with a lame, stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys? Doan's people endorse Doan's Kidney Pills. You can rely on their statements.

Mrs. J. T. Berry, 313 W. Pond St., Decatur, says: "I suffered from backache and when I sat down for a short time, I became so stiff that it hurt me to stand up again. If I did any sweeping, the trouble was awful. I suffered from dizzy spells when everything in front of me became black. Sometimes I thought I was going blind. The kidney secretions were unnatural and irregular in passage. I was restless at night and during the day felt tired and languid. One box of Doan's Kidney Pills, procured at the Owl Drug Co., greatly strengthened my kidneys and I have been free from the trouble ever since."

## NAVIGATION HAD ONE ADVOCATE

NEW PROJECT FOR SERIES OF DAMS ABOVE BURNSIDE, KY., IS REVEALED TO CABINET MEMBERS.

Nashville, Tenn., March 14.—(Special.)—Secretary of War Baker, Secretary of the Interior Lane and Secretary of Agriculture Houston, members of the federal nitrate board, spent two hours in Nashville yesterday morning from 10 to 12 o'clock, for the purpose of hearing claims for the upper Cumberland site.

The hearing was short. Two representatives of the upper river section, L. E. Bryant and A. B. Massey, were the only ones who appeared. A telegram was wired the board that a delegation from Knoxville would be present yesterday, but they did not arrive, so the scant three quarters of an hour after hearing the two representatives was spent in a short tour of the city. The board left for Louisville at noon, after being welcomed to the city by prominent citizens of Nashville.

The party was met by a committee when they reached the union station and hurried to the hotel. By 10:15 Secretary of War Baker announced the board ready for hearing any claims for the location of the federal nitrate plant on the upper Cumberland.

But no claimants were present at first. It began to seem as if the upper Cumberland did not want a nitrate plant. Nashville itself assumed a hands-off attitude, it being clear to the board that the Muscle Shoals site was favored in previous hearings.

Shoals Good Enough. So the board waited. Presently W. E. Myer, of Carthage, Tenn., who is president of the Cumberland River improvement association, arose and announced that he was for the location of the nitrate plant at Muscle Shoals. Another silence ensued.

It then developed that a delegation from the upper Cumberland was present and had met the regular train from Alabama, not knowing of the special. They came in at 10:30, and L. E. Bryant, a coal operator of Roberts, was the chief spokesman. A few moments after he began the board was listening intently, because it became clear that Mr. Bryant knew much about his subject.

The main contention of Mr. Bryant was that a series of dams above Burnside, Ky., with a height of 100 feet, would not only furnish about 125,000 horsepower, but would make the river navigable the year round. The cost of construction he estimated as \$2,000,000.

For Navigation. Capt. A. B. Massey, of Burnside, Ky., followed Mr. Bryant. He said that he was interested chiefly in navigation having followed this line of business for the last thirty years. He predicted a future for the Cumberland as a means of cheap transportation.

E. B. Stahlman said that while Nashville was in sympathy with the upper Cumberland section, that the Muscle Shoals site was found to be the best from all angles. He said he believed that site to be the best for the government and the South.

"We are now ready to listen to anyone else who wishes to speak in favor of the upper Cumberland," said Secretary Baker.

No one spoke, and the hearing was adjourned at 11:20.

## Request Is Made To Sell Ambrosia Here

Mayor Nelson Says Case Is Up to the Supreme Court.

Mayor Nelson, of Decatur, today was asked by persons interested in the sale of Ambrosia, "a temperance" drink, if the product could be retailed here. It was the first effort that had been made to sell locally the drink which created much comment in Birmingham last year, when the Ambrosia stands were closed up by the courts on the contention that sale of the drink was in violation of the prohibition laws.

Mayor Nelson told his inquirers today that the case is now before the state's highest tribunal and upon the decision of that body rests the fate of the thirst quencher. Ambrosia is declared to be a non-alcoholic beverage resembling beer.

## The Margin of Safety

The Government requires that a National Bank located in a city such as Albany, carry at all times a reserve [Cash and Exchange] of 12% against its deposits.

The reserve of the Central has during the past year averaged fifty thousand dollars more than this required 12%. This excess, above the legal requirement, represents the Margin of Safety which it is the purpose of this bank to maintain at all times in all matters.

## CONSTANZA ATTACKED.

(International News Service.)

London, March 14—Russian destroy-

ers that attempted to bombard the

coast of Constanza were driven off by

German sea planes, according to an

official report from Berlin. One de-

stroyer is claimed to have been hit.

# Benevolent Soc'ty Hospital Badly In Need Of Funds

The Benevolent Society Hospital of the Twin Cities is badly in need of funds, according to a statement authorized today by hospital authorities.

Since the opening of the hospital on August 16, 1915, to March 12, 1917, 300 cases were treated and of these 229 were surgical cases.

The fixed monthly income is only \$55, all of which comes from the lodges, churches and others in Albany and Decatur.

Since the opening of the hospital the table expense has increased 27 per cent. The deficit has been raised thus far by the ladies of the Twin Cities, the sum of \$1,424.81 having been made by various entertainments.

Many Charity Cases.

Of these 300 cases a goodly number have been charity cases. Just how to deal with these charity cases has been a problem to the hospital management.

One touching incident was related

today. "A woman with a five weeks old baby which was very ill rode all night to reach a physician, only to be told that nothing could be done," said one of the ladies connected with the hospital. "Nothing daunted the woman went still further to another physician, who said the only hope was for an operation, and told her of the Benevolent Society hospital. The grandfather, mother and child arrived at the hospital having only five dollars for railroad fare and expenses and nothing to pay for the operation or hospital expenses. Could you turn that woman and child away? Common humanity would give that child the chance to live and this the good surgeon and the hospital authorities gave. This is only one instance out of many."

Not Self Sustaining.  
"The question is often asked, is the hospital self sustaining. Hospitals never are self sustaining even with large incomes from cities able to give."

## OBREGON RESIGNS AS WAR MINISTER

(International News Service.)

Mexico City, March 14—General Obregon, the strong man in the Carranza

government, has resigned as minister of war in the cabinet and shortly will retire to private life.

It is not known today whether his resignation will be accepted by Carranza.

Proper Illustration.

It is a mistake, avers the Illuminating Engineer Society, to use a bright light against a dark background, and while an artistic fixture is well enough as a decoration, yet lamps which in themselves are good and suitable will not be satisfactory from a hygienic standpoint unless the fixtures are in the right position. In planning the illumination of a room it is only common sense to determine just what you are going to use that room for, and then to arrange the lighting. By doing this it should be possible for people of middle age to add years of excellent eyesight which otherwise would soon diminish. Where children of various ages are in a family the matter of artificial light is of great importance. The general health of a growing boy or girl may be seriously affected by careless lighting, especially in rooms where they read or study.

## Frank Cobb Names Cattle Inspector

Frank Cobb, of Albany, son of Chief of Police Cobb, has been appointed cattle inspector by Federal Inspector W. W. Cameron to succeed A. S. Grubbs, who resigned to accept a position on the Albany police force.

Mr. Cobb is well known here and his many friends were rejoicing today over his appointment. It is effective March 16.

The official station of Federal Inspector W. W. Cameron has been changed back from Guntersville to Hartselle.

## Victorious But Conquered.

Victories are often purchased at great cost. Sometimes the victory becomes a defeat. What tickles the national fancy may drive men to extremes but the extremes may bring consequences little dreamed of. In the midst of the celebrations of victory the collapse of power may begin. No nation is so dangerously near calamity as it is in the moment of its triumphs. Then it is that the bars of restraint are lowered and follies appear in the guise of festive heralds of greatness. One can't rise and by rising tamper with principles. No man can ever get above his honor and remain worthy of himself. The fact that you rise is evidence that you will need all your powers to keep you in high station.

## LIVING STATUE IN FRANCE

In the wonderful park of Thillois castle, in France, there are many pedestals minus their statues, the carvings having been shot to pieces by enemy shell fire. A merry "pollu" mounted a vase and took the place of the missing sculpture, posing so statue-like that companions some distance away did not discover the deception until the "statue" relaxed his forced pose and jumped to the ground.

## JACKSON IS NAMED VICE-PRESIDENT OF

(Continued from Page One.)

"When first currency was made into law, after being drawn up by Mr. Chase, of New York," he said, "it placed the reserve fund of the country practically in three cities. The remainder of the nation drew on those cities for its supply of money. These three reserve banks kept the gold supply for all of us, loaning out currency on the strength of their reserve supply of gold. At times, as in 1907, they were unable to meet the demands made on them and a panic resulted. There would have been another in 1914 had not the federal reserve system already become a reality. The federal reserve banks now act as the distributing centers and they are enabled to provide the funds to the other banks, with which the crops may be moved and other demands of commerce met. A panic is nothing more nor less than 'tight' money, caused by inability of the reserve centers to meet the demands of the interior banks for funds."

## Describes Inner Workings.

Mr. McCord gave an extended technical account of the inner working of the new banking laws, considered one of the greatest pieces of legislation ever put through by an American congress.

Mr. McCord's address was declared by local bankers to be one of the best explanations of the new currency laws ever given. He was listened to with rapt attention.

## Visit Auto Show.

At the conclusion of Mr. McCord's address, the bankers visited the auto show en masse and were loud in their praise of the beautiful exhibit of cars. "Why, this show beats the one in Birmingham last week," a Maritz City banker is quoted as saying. "We had no place large enough to hold our show and were forced to build a temporary auditorium. It rained during the show and the roof of the building leaked, detracting greatly from the pleasure of the occasion. Albany and Decatur should be proud of the show here."

Music was rendered during the banquet by Mike's orchestra, which later played at the auto show during the visitor's tour of inspection and then went to the Colonial club, where an informal dance lasted until midnight.

## Afternoon Session.

The afternoon session was called to order yesterday afternoon by Vice President Thomas A. Bowles. The visitors were welcomed to the city by Probate Judge Lovick P. Troup, the response being made by Thomas Barron of Birmingham.

Mrs. G. H. Mathis, noted woman farm expert, was introduced and spoke on the work she has been doing over the state for the Alabama Bankers' association, telling how the agriculturists of the state are rapidly forging to the front. Mrs. Mathis did not urge an abandonment of the

Hughes & Tidwell  
Telephone 61 Albany

cotton crop entirely, but did impress on her hearers the necessity of growing more foodstuffs. "Do not make cotton the main crop," she said, "for it takes a pound of cotton to pay for a pound of meat or lard and you gain nothing. Grow some cotton, but feed yourself."

Mrs. Mathis will leave immediately for New York, where she will speak before a gathering of bankers of that city, explaining to the northern capitalists the agricultural resources of Alabama. The bankers' association, by which Mrs. Mathis was employed, believes she can do as much or more than any person to create new credit and bolster the old for Alabama in New York.

## Dr. Cutler Speaks.

Dr. W. P. Cutler, of Chicago, former inspector of food and dairies of Missouri, also addressed the meeting, telling of the advantages of dairy crops over others and outlining the profits of that kind of work.

"There is one thing I advocate above everything else," he said. "I urge the farmers to keep cows and sell cream and butter, not the skimmed milk. I believe they will find it much more profitable if they will take the milk, skim it well, getting all of the cream and butter possible for the market, and then feed the stock with the skimmed milk. That plan has been tried and tested thoroughly and is now being used successfully in many sections."

H. T. Bartlett, of Montgomery, secretary of the Alabama Bankers' association, also made an informal talk.

The following is the resolution adopted by the bankers last night in reference to the statement of the Birmingham Clearing House:

"Group 1, of the Alabama Bankers' association, wishes to heartily endorse the action of the Birmingham Clearing House association in its action in endorsing the statement of President John Frye, and the directors of the Traders' National Bank of Birmingham in reference to its solvent condition and express our abiding confidence in the institution."

# SEEING IS BELIEVING

## We Have Just Received Our Spring Line of Children's Dresses

Ranging in size from 2 to 14 years. This line comprises all of the new style ideas as well as the late day fabrics in colors and whites.

We predict a more general use of ready-to-wear garments than has been known in any previous year, for the reason of the great advancement in the price of materials.

## READY-MADE DRESSES ARE MORE ECONOMICAL

As an illustration, our contracts for this class of merchandise were placed with the manufacturer last November. The manufacturer had placed his orders for the raw materials from which they were made last April, almost a year ago. The increase in the price of cotton materials now and a year ago is almost one hundred per cent.

Hence our contention that the finished garment can be purchased at our present prices for the same or less money than for which the materials could be bought at the retail price. Why sew? We have the largest stock of these dresses that we have ever seen in the twin cities and mothers are especially invited to give them a look. Prices from 59c to \$5.00.
